

# IBMT Annual General Meeting 2023

## **AGM venue**

When the IBMT was set up, it was agreed that the AGM should be hosted by a different town or city in the British Isles every year.

This AGM recognises that there has been a steep rise in prices for accommodation and travel, on top of the price hikes for basic living expenses. This impacts most on those least able to pay and may exclude IBMT members who would like to attend the AGM but who find the cost prohibitive.

This AGM therefore instructs the IBMT Officers and Committee to investigate the feasibility of making the Annual General Meeting a hybrid event and circulate their recommendations to the membership, such that hybrid meetings can be set up as from AGM 2024.

Proposed by Pauline Fraser
